

This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

- + *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
- + *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
- + *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
- + *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

About Google Book Search

Google's mission is to organize the world's information and to make it universally accessible and useful. Google Book Search helps readers discover the world's books while helping authors and publishers reach new audiences. PALO ALTO, MAYFIELD, RUNNEYSMEDE AND STANFORD

The government census in 1920 gave Palo Alto a population of 5,900. The directory canvass, supplemented by the health department work in 1920 showed that in the same territory that was covered by the government enumerators there were more than 6,100 people. Since the national census was taken the population has further been increased by annexation of outlying territory, so it is believed Palo Alto's population is fully 9,000. In the Palo Alto Acres district and other territory tributary to Palo Alto are 2,000 more people. Mayfield and Stanford, also more or less tributary to Palo Alto, add 4,000 more, making a total population in the district covered by this territory fully 17,000. Palo Alto is the largest city between San Francisco and San Jose. It is the business center of this district. Mayfield is a residence and canning center. Stanford University and five private schools, along with the public schools make it an educational center. San Francisco is 32 miles northwest and San Jose 17 miles southeast. Steam and electric railways run to San Jose; bus lines and steam railways run via Palo Alto from San Francisco to San Jose.

The present city charter of Palo Alto went into effect July 1, 1909. It was formulated by a board of freeholders composed of Marshall Black, C. E. Jordan, H. W. Simkins, C. B. Wing, Fernando Sanford, E. C. Thoits, C. B. Stinson, J. T. Coulthard, G. J. Carey, Walter E. Vail, B. P. Oakford, S. W. Charles, Stanley Forbes, C. S. Downing and A. N. Umphreys. The governing body of the city is the council composed of fifteen members, each elected for a term of six years and five retiring every two years. All executive officers are selected by the council. Subordinate boards look after details of administration, such as public works, public safety and the library, community center, city planning and commercial amusements. Appointive officers serve during the pleasure of the council, but the custom has become established that such appointive officers are reappointed annually and have served almost continuously for most of the time since the charter was adopted.

Among features of public policy embodied in the charter are

the initiative, referendum, recall, prohibition of manufacture and sale of alcoholic liquors and public ownership of utilities. The water, gas and electric lighting utilities are owned by the city, a garbage incinerator has been installed and is now in operation.

STREET DIRECTORY

In emergencies this house list will be found specially useful. First look in the telephone book for the person wanted. If he cannot be reached directly that way and the occasion demands quick action look him up in the alphabetical list of names in the city directory. Then turn to this list of houses and find who lives next door or near at hand. Then consult the telephone book, call up the neighbor and have a message sent to the person wanted. This method will save a great deal of time, but should be followed only when the need is urgent.

Streets in Palo Alto parallel the railroad tracks from northwest to southeast. Avenues run at right angles to the streets from southwest to northeast. This arrangement places all residences in such positions that the sun shines into them at some time during the day. Streets and avenues follow :

Addison avenue, northeast from Alma street to Channing, 10 blocks.

PALO ALTO

The system of house numbering in use in Palo Alto was devised and arranged by H. W. Simkins while town clerk. It takes the Palo Alto tree for its base and meridian and each full block is a unit of 100. The numbers from 1 to 99 are discarded, to be used later when the avenues may be cut through to the county road. Two numbers are allowed for each 25 feet on each side of the street, the even numbers on the right and the odd numbers on the left side of the street. The half numbers are disregarded, except that fifty numbers are given to one side and fifty to the other in that block. Every row of blocks in either direction would have the same index numbers, as 500, 700 or 1200 block, and the index number would tell its distance in blocks from the base line.

That Sorry Feeling

Folks may feel sorry for a ragged widow and a bunch of orphans once. But that "sorry feeling" doesn't feed 'em forever. How will yours fare? It's up to you. See

MAYFIELD

MAYFIELD

The town of Mayfield is one of the oldest in this part of the county. It was organized long before Palo Alto was founded, but the making of Palo Alto the university town gave it a great advantage. Mayfield's population increases very slowly. Most of the people there are either old residents or natives. City officials are as follows:

Board of Trustees—George B. Moore, chairman; Allison Peacock, Steve Anderson, Bert R. Holston, Joseph A. Gemur.

Committees of the board of trustees are made up as follows:

Lights and Streets—Steve Anderson, George B. Moore.

Water—Gemur, Peacock.

Building—Anderson, Moore.

Parks and Amusements—Gemur, Holston.

Finance—Gemur, Holston.

Clerk—S. M. Cuthbertson.

Treasurer and Water Collector—R. L. Pitcher.

The appointive officials are:

Marshal and Tax Collector—F. D. Minaker.

Town Engineer—Charles E. Moser.

Town Attorney—Granville N. Wood.

Town Recorder—Bernard Mayer.

Water Engineer—P. A. Crowley.

Health Officer—Elsie G. Roberts.

Librarian—E. J. Roberts.

Traffic Officer—Orville Overturf.

Mayfield School

Mayfield's school district embraces a territory fully four times as large as the town itself. Two commodious buildings are provided for the children of grammar school grades. Members of the board of trustees and teachers are as follows:

Trustees—George O. Call, clerk; Mrs. Pearl Shreve, Sherman Van Gorden.

Teachers—E. M. Knight, principal; Annabel Mitchell, fifth grade; Helena G. Hansen, seventh grade; Mrs. Viola B. Daughtery, first grade; Janet A. Thain, second grade; Ethel Topham, fourth grade; Dorothy Cupper, third grade and domes-

tic science; Jessie Sommerville, sixth grade; Mildred Holston, kindergarten.

Mayfield Churches

Catholic—Church of St. Aloysius—Rev. Father J. P. Cavanaugh, pastor. Services every Sunday. Four hundred block, Palo Alto.

Methodist Episcopal Church—Rev. J. C. Gillette, pastor. Sunday services: Sunday school, 9:45 a. m.; preaching, 11 a. m. and 7:30 p. m.; senior league, 6:30 p. m. Midweek prayer meeting Wednesday, 7:30 p. m. Official board first Tuesday of each month. Sunday School, second Tuesdays of month. Ladies' Aid, second, fourth Thursdays. Men's Community Club, second, fourth Fridays.

Many of the houses in Mayfield are not numbered, a condition which makes it impossible to give more than the name of the street upon which the house is located.

RUNNYMEDE

The Runnymede-Ravenswood colony is located just across the boundary line in San Mateo county. The colony is made up of small farms devoted to intensive agriculture and poultry. A large proportion of the population receives mail from the Palo Alto postoffice only by the rural free delivery. The houses are not numbered. In the accompanying list the name is given, the street upon which the home is located, then the rural free delivery box number, which will enable searchers to locate residences. In some instances Runnymede and Ravenswood have boxes at the Palo Alto postoffices, the number being given in such cases. Delivery of mail through the Menlo Park postoffice has been discontinued.

Runnymede and Ravenswood are not incorporated. Children attend the Ravenswood school, which in 1916 had not more than a dozen pupils. Now there is an attendance of 179. Trustees are L. H. Brown, clerk; Mrs. J. A. Cameron and E. R. Lam. The teachers are Mrs. Frances Hambleton, principal; Bernice Ewell, Ruth Harris, Aurelia Weston, and Louise Clark.

Organizations

The Runnymede 49er Club which was organized to represent the community in the Pageant of Progress and which won, by their community effort, the prize, was made a permanent organization. Dr. E. R. Tait is the president, Mrs. George Hand, secretary; Frank Hand, treasurer. Their present efforts are in the interests of the school, having charge of the monthly literary programs, the proceeds of which are used for school furnishings.

The Ravenswood Chamber of Commerce organized for community betterment, meeting first of each month. R. R. Waterbury, president; C. W. Converse, vice president; J. H. Stubbe, secretary and treasurer.

The Runnymede Woman's Club meets first Wednesday afternoon of each month. The study of California is the study of this year, featuring places of interest, within a day's journey of Runnymede. The officers are: President, Mrs. Len Follett;

America. It is rich in mosaics, art glass windows, beautiful carved stone, and architecturally it is a gem. It richly rewards a visit. Services are held there every Sunday morning during the school year. Free organ recitals are given Sunday, Tuesday and Thursday afternoons. The church is open for visitors every day in the year.
